

Public & social impact

We're committed to solving the most critical and high-priority challenges facing our communities.

Slalom brings extensive experience across government, education, and nonprofit sectors. Our practical end-to-end solutions help you navigate your digital transformation journey, optimize internal operations, and enhance service delivery. Anchored in our purpose of building better tomorrows for all, we partner to drive lasting impact.

- 950+ Public and social impact customers
- 7.1K+ Public and social impact projects completed since 2000
- 2.8K+ Public and social impact experienced consultants and former government executives

Our public & social impact expertise

Federal & national government

Decades of consulting have taught us that people and processes are just as important as the right technology. We combine commercial best practices with federal and national expertise and collaborate with you to customize solutions that steward taxpayer dollars responsibly while delivering results.

Nonprofit & philanthropy

Our nonprofit and philanthropy practitioners are passionate about making a meaningful impact in the communities where we live, work, and play. Non-governmental organizations across the globe partner with us to adapt to and prepare for trends shaped by evolving digital technologies, dynamic stakeholder preferences, and community needs.

State, provincial & local government

Government plays a key role in solving the urgent challenges of our time, from digital equity and police transparency to the overhaul of legacy health and human service, transportation, and employment systems that serve millions of residents. We help you reach solutions others will not and then deliver at scale.

Education

Slalom helps our education customers meet the challenges of today and establish a strong foundation for tomorrow. We partner with colleges and universities, school districts, and other organizations that develop knowledge and deliver learning, bringing our expertise to improve the experiences of their students, teachers, and leaders.

"In our quickly changing world, the need to innovate is just as critical in academia as it is in the corporate sector. We're creating the digital university of the future."

Chief Innovation Officer
Georgia State University

Who we are

Slalom is a **fiercely human** business and technology consulting company that teams with **leaders** who expect more. So **we bring more**.

How we're different

More leading with why and how.

We start with understanding your singular "why," centering your purpose, understanding your customers, and charting a course for action that is true to who you are.

More connections and breakthroughs.

We help your team discover and experience deep insights, new perspectives, and best practices that can reshape your organization.

More quickstart solutions.

We unlock immediate value via a rich portfolio of accelerators, tailored by industry, that has been developed alongside best-in-class partners in technology, data, cloud, and AI.

More care for you and your team.

We always act in alignment with our deeply held core values and strive to ensure that you appreciate the experience of working with us. We get the people part right.

More value. In all ways. Always.

You should experience measurable and material value creation - strategically, operationally, financially - from partnering with us now and into the future.

What we do

From strategy through delivery, we collaborate with you to bring powerful customer experiences, innovative ways of working, and new products, services, and businesses to life.

Locations

Our teams across 52 offices in 12 countries, including 2,800+ experienced public sector and nonprofit consultants, collaborate with clients to bring solutions to life.

Partnerships

We partner with over 700 of the world's leading technology providers to create extraordinary results for government, education, and nonprofit leaders like you.

Customers

Our public and social impact customers include state and local governments, public education systems, youth programming organizations, food bank networks, government agencies, and more.
